BIORAJ PHARMACEUTICALS LIMITED		
BRAND NAME: KISIVITE MULTIVITAMIN	GENERIC NAME: Vitamin A 1000 iu	
	Vitamin B1 1200 mcg	
	Vitamin B21200 mcg	
	Vitamin B6 500 mcg	
	Vitamin C 40 mg	
	Vitamin D 200 iu	
	Nicotinamide 10 mg	
SUMMARY OF PRODUCT CHARACTERISTICS		

1. NAME OF THE MEDICINAL PRODUCT

Kisivite Multivitamin

# 2. QUALITATIVE AND QUANTITATIVE COMPOSITION

Each 5ml contains:

Vitamin A..... 1000 iu

Vitamin B1..... 1200 mcg

Vitamin B2.....1200 mcg

Vitamin B6..... 500 mc

Vitamin C..... 40 mg

Vitamin D ...... 200 iu

Nicotinamide ...... 10 mg

#### 3. PHARMACEUTICAL FORM

Oral Solution.

A yellow viscous syrup.

#### 4. CLINICAL PARTICULARS

#### 4.1 Therapeutic indications

**KISIVITE** multivitamin syrup is a preparation of multivitamins which are present in sufficient amount to prevent deficiencies of the contained vitamins and promote healthy growth.

#### Indications include:

- a) Improvement of appetite and optimal utilization of food intake.
- b) Deficient state of vitamin A which could cause night blindness and follicular keratitis.
- c) Vitamin B1 deficiency resulting in Beriberi, Vitamin B2 deficiency resulting in angular stomatitis, vascularized cornea, photophobia and a burning sensation of the eye; neuritis in adult. In children, vitamin B6 deficiency affects the central nervous system adversely.
- d) Vitamin D3 deficiency leading to bone softening or osteomalacia in adult and ricket in children.
- e) Deficiency of Nicotinamide leading to Pellagra, loss of appetite, lethargy, mental and neurological disturbance.

# BIORAJ PHARMACEUTICALS LIMITED BRAND NAME: KISIVITE MULTIVITAMIN GENERIC NAME: Vitamin A..... 1000 iu Vitamin B1..... 1200 mcg Vitamin B2..... 1200 mcg Vitamin B6..... 500 mcg Vitamin C..... 40 mg Vitamin D.... 200 iu Nicotinamide ..... 10 mg

f) Vitamin C deficiency resulting in Scurvy.

As dietary supplements resulting in a compromised immune state.

# 4.2 Posology and method of administration

Children: 2.5-5ml daily.

**Adult and children above 10 years:** 5-10ml daily or as directed by the physician.

#### 4.3 Contraindications

Known sensitivity to any of the excipients

#### 4.4 Special warnings and precautions for use

Most vitamins are comparatively non-toxic but prolonged administration of high doses of vitamin A, Vitamin D and Vitamin B6 may have severe adverse effects. Side effects may include nausea, diarrhea or constipation.

#### 4.5 Interaction with other medicinal products and other forms of interaction

The pyridoxine hydrochloride in Kisivite multivitamin may reduce the effectiveness of levodopa.

#### 4.6 Pregnancy and lactation

Kisivite multivitamin is considered safe in the recommended dose.

# 4.7 Effects on ability to drive and use machines

None stated

#### 4.8 Undesirable effects

None known

#### 4.9 Overdose

Not applicable.

# 5. PHARMACOLOGICAL PROPERTIES

#### 5.1 Pharmacodynamic properties

*Thiamine Hydrochloride (Vit B1):* A water soluble vitamin. It is a co-enzyme for carbohydrate metabolism.

**Riboflavine Sodium Phosphate (Vit B2):** A water soluble vitamin converted in the body to flavine mononucleotide and flavine adenine dinucleotide and then involved as co-enzymes in oxidative and reductive metabolic processes.

*Nicotinamide:* A water soluble vitamin considered part of the Vitamin B group. Converted to Nicotinamide Adenine Dinucleotide and Nicotinamide Adenine Dinucleotide Phosphate in the body, both of which are co-enzymes important in electron transfer in respiratory reactions.

\*Psychologia.\* Hydrochlogide (Vit R6): A water soluble vitamin. Involved in carbohydrate and father the property of the vitamin and part of the Vitamin B group. Converted to V

*Pyridoxine Hydrochloride (Vit B6):* A water soluble vitamin. Involved in carbohydrate and fat metabolism, but also important in haemoglobin formation.

Ascorbic acid (Vitamin C:) takes part in biochemical reactions involving oxidation, as in collagen synthesis, and in conversion of folic acid to folinic acid. It is also necessary for normal phagocytic function of WBCs (white blood cells).

Thus an adequate supply of these water-soluble vitamins is required for the optimum function of various cells and tissues.

These water soluble vitamins are not stored in the body to any significant extent, the excess quantities being excreted in the urine. Therefore, a regular and adequate intake of them is necessary to meet the metabolic requirements.

Deficiencies of water soluble vitamins often co-exist several of them because of their overlapping dietary sources and metabolic interdependence.

Initially the deficiency of these vitamins may be subclinical and demonstrable only by means of biochemical tests. If not corrected at this stage, it may become manifest as various symptoms, including impaired wound healing and increased susceptibility to infection. Classical deficiency diseases such as beri beri, pellagra and scurvy are rare, whereas mild and subclinical deficiencies are probably more common, even among apparently healthy individuals.

BRAND NAME: KISIVITE MULTIVITAMIN	GENERIC NAME: Vitamin A 1000 iu	
	Vitamin B1 1200 mcg	
	Vitamin B21200 mcg	
	Vitamin B6 500 mcg	
	Vitamin C 40 mg	
	Vitamin D 200 iu	
	Nicotinamide 10 mg	
SUMMARY OF PRODUCT CHARACTERISTICS		

# 5.2 Pharmacokinetic properties

All the actives are water soluble vitamins. Quantities in excess of the bodies requirements are excreted either unchanged or as metabolites, mainly in the urine but to a lesser extent also in the faeces.

# 5.3 Preclinical safety data

None stated

#### 6. PHARMACEUTICAL PARTICULARS

# **6.1 List of excipients**

Sodium CMC

Sodium methyl Paraben

Sucrose

Sodium Benzoate

Citric Acid

Propylene glycol

Ethanol 96%

Tween 80

Sorbitol

Pineapple flavor

# 6.2 Incompatibilities

None known

#### 6.3 Shelf life

24 months.

### 6.4 Special precautions for storage

Keep in a cool dry place below 30°C away from light. Keep out of reach of children.

#### 6.5 Nature and contents of container

100ml amber plastic bottle in a cardboard carton along with packing leaflet

#### 6.6 Special precautions for disposal and other handling
