Not available

4.7 Effects on ability to drive and use machines

Not available.

4.8 Undesirable effects

Skineo is topical cream that is well tolerated and has little or no side effects when used properly. On occasion, irritation or burning sensation may occur during treatment. However, it is unnecessary to discontinue the treatment with Skineo. In severe or extreme cases you may contact the doctor.

4.9 Overdose

Skineo is well tolerated, no adverse effect has been observed in the event of overdosage.

5. PHARMACOLOGICAL PROPERTIES

5.1 Pharmacodynamics properties

The active ingredient of Skineo is ketoconazole, an antifungal agent with a broad-spectrum of activity from the Imidazole group. Skineo has extremely potent anti-mycotic actions against dermatophytes, its spectrum of activity normally against following: Candida Albicans, Toulopsis, Cryptococcus, Pityrosporum.

Clobetasol Propionate is a hormone of the cortex that is highly effective as an anti-inflammatory and anti-allergenic agent with little or no side effects.

Neomycin sulfate is an aminoglycoside antibiotic which can treat local infection for external use. The synergies obtained in the composition of the compound results in the cream being highly effective against fungi, bacteria, inflammation and pruritus.

5.2 Pharmacokinetic properties

5.3 Preclinical safety data

6. PHARMACEUTICAL PARTICULARS

6.1 List of excipients

Cetomacrogol-1000, Cetostearyl Alcohol, Light liquid Paraffin, White soft paraffin, Propylene glycol, Disodium Hydrogen Phosphate Dihydrate, Sodium Dihydrogen Phosphate Dihydrate, Methyl Hydroxy Benzoate, Propyl Hydroxy Benzoate, Anhydrous Sodium Sulfate, Phosphoric acid, Fragrance spring awakening P4200, Purified water.

6.2 Incompatibilities

Not Applicable

6.3 Shelf life

36 months.

6.4 Special precautions for storage

Store below 30°C in a dry place, Protect from light.

Do not freeze.

Do not accept if seal is broken.

Keep the tube tightly closed after use.

Keep the medicine out of reach of children

6.5 Nature and contents of container <and special equipment for use, administration or implantation

30g cream filled in lami tube with polypropylene cap packed in carton with pack insert.

6.6 Special precautions for disposal <and other handling

Any unused product or waste material should be disposed of in accordance with local requirements.

7. APPLICANT/MANUFACTURER

M/s ELBE PHARMA NIGERIA LIMITED
